FREIWERK

HOTEL & SPA SUITEN

We are all **searching** for something and want to **arrive**. Here in the Southern Harz region, you are very **welcome** – for **moving forward** with great memories.

Situated above the rooftops of Stolberg in the Harz Mountains, and surrounded by the gentle sound of the Harz countryside, FreiWerk is more than just a hotel. It is a place of tranquillity for a time-out without haste.

Simply switch off, let the hustle and bustle of the world pass you by and listen to the whispering of the trees - nowhere does this better than here. Our Hotel & Spa Suites FreiWerk in the Harz Mountains combines history and modernity, tradition and spirit.

While the medieval half-timbered streets of Stolberg nestle along the bed of the Thyra and the narrow Lude rivers in the valley below, FreiWerk is enthroned high up on the Thyrahöhe.

Here I have arrived.

This is where I arrived, having lost my family's possessions during the war. And so, immediately after reunification, I applied again to the Treuhand for forest land in East Germany. Having often come away empty-handed as the 'second winner', I won the tender for the forestry operation near Stolberg/Harz in 1994.

Thanks to my education and professional life, I had seen a lot of the world, lived on three continents, but had remained rootless. I was always looking for a special place where I wanted to stay. Once I arrived in the southern Harz, amidst the rustling leaves of the copper-beech forests, I discovered my region, which offers so much more than just beauty - in addition to peace, protection and vastness - there is always something new. **This is exactly where I found my home.**

For me, the forest is more than just hunting and forestry. And sustainability is not about doing without, but about using the resource intelligently. Embracing the forest gave rise to the desire to share this place with others, to show others the beauty and fascination of the region. To make a 'home' tangible not only for me, but also for guests.

It's great to have you here!
